

Going the Distance in Distance Learning with On-line Technology (The Beginning of E-Learning)

TABLE OF CONTENTS

Preface

Introduction

Section One:

The Growth of Distance Learning

Various Definitions Associated With Distance Learning

- FIGURE 1: Distance Learning Alternative Forms
- FIGURE 1a: Two-Way Communication (Interactive) Forms

The Beginnings of Distance Learning

The Relevant Social Groups in Distance Learning

- Students
- Supporting Organization: The University

Examples of Distant Learning Centers

- Open Learning University - United Kingdom
- Australia's Dual-Mode Framework of Distance Learning
- A U.S. Model: 2+2+2=4 Distance Learning Partnership

The Future of Distance Learning

- TABLE 1: Distance Learning Timeline
- TABLE 2: Taxonomy of Distance Learning
- TABLE 3: Well-Known Distance Learning Universities

Section Two:

Analysis of Distance Learning Using the SCOT Model

Change/Continuity

Symmetry

- Institutional Administration
- Students
- Faculty

Actor Structure

- TABLE 4: Elements of Technological Frame for One-way Distance Learning System

Seamless Web

Conclusion

- TABLE 5: Requirement for a Theory of Technological Development - SCOT Model

Section Three:

On-Line Technology

*The Beginnings of On-line Technologies:
The Relevant Social Groups in the Development of On-line Technology*

- TABLE 6: Hobbes' Internet Timeline
- FIGURE 2: On-Line Technology Model Today

Section Four:

Analysis of On-line Technologies Using the SCOT Model

Change/Continuity

Symmetry

- Institutional Administration
- Students
- Faculty
- TABLE 7: On-line Technology Key Actors

Actor Structure

- TABLE 8: On-Line Technological Frame

Seamless Web

The Future of On-line Technology to Distance Learning

Section Five:

Evaluation and Design of Distance Learning Programs

Evaluations of Distance Learning Programs and On-line Technologies

Comparison of Poor Versus Well Designed Systems

- FIGURE 3: Cause Map 1
- Poorly Designed Systems
- Well Designed Systems

The Critical Function of Communication in Distance Learning Programs

A Recommended System of A Distance Learning Program with On-Line Technologies

- FIGURE 4: Distance Learning and On-Line Technology
- FIGURE 5: A Distance Learning System Model

Conclusion

Challenges of Distance Learning with On-Line Technology

Opportunities Arise from Distance Learning and On-Line Technologies

Appendix

Application of Concepts/Models to Analyze the Growth Potentials of Distance Learning Systems and On-Line Technologies

A Theory of Design for Distance Learning and On-Line Technologies (SIMON)

Models for Innovations (LATOURET)

Technology, Management and Organization (YATES/FORTY)

Social Cognition of Design (BUCCIARELLI)
